### Sena Cases Reveals New iPod Family Collection

(Wireless News Via Thomson Dialog NewsEdge)  
 Sena Cases has rolled out a new line of luxury leather cases for Apple's new iPod family collection.

Made from the finest quality European leather, the new Sena collection masters the marriage of style and function in a variety of colors and styles.

iPod Touch Cases -- Available in an array of colors, the iPod cases are comprised of exquisite leather. The most popular case, the Premium Stand, is designed to let the iPod Touch stand freely allowing users to watch video with ease. The UltraSlim case offers a sleek protection with minimal bulk, while the Elegia Pouch offers a shock-absorbent design to shelter the device during travel. Other cases include LeatherSkin, a thin, form-fitting leather case and the MagnetFlipper, which utilizes gravity and a magnetic flip closure for armor.

iPod Classic Cases -- Available in a variety of colors, the new iPod 6th generation cases are available for both the 80GB and 160GB models. Styles include: The Dockable, which allows the case to remain on when docking the device; Premium Stand, a self-standing case making hands-free video watching a breeze; the MagnetFlipper, a magnetic flip cover case that protects operating controls.

iPod Nano Cases -- Available for generation three, Sena's UltraSlim case offers a slim presentation with ultimate protection.
