

Sena Cases announces new cases for iPhone

July 10, 2007 - 05:47 EDT **Sena Cases** has launched a line of **luxury, protective leather cases for the new iPhone**. The new premium cases include: MagnetFlipper; LeatherSkin; Elegia Pouch; UltraSlim Pouch and the Dockable, which the company says is the only case on the market that allows the case to remain on while docking the iPhone. All cases are individually handcrafted and constructed of full-grain, top quality, genuine calfskin leather. Complete details on each case, as well as pricing, is available from the Web site.
