

Sally Ray Boutique

Fitness and fashion have come together at longtime Cedros staple Milagros Personal Training Center. The upscale fitness facility now also offers the Sally Ray Boutique, a lifestyle shop “that transports you from your workout to living your day,” explains boutique owner Sally Gunther. “We carry everything from workout wear to unique, stylish fashion wear and accessories.” Featured lines include Om Girl, Brazil Sul, City Lights, Be Present, Blue Tattoo, Hudson, Robin’s Jeans, Joe’s Jeans, Splendid, Zooey, and much more. Gunther teamed up with Milagros and its owner Marcus Bornstein, because she values the “synergistic relationship between a personal training gym and the convenience of shopping for that lifestyle.” Working out never looked so good. Chic Cases

Carry your tunes in style with a sleek leather iPod case. Costa Mesa-based handheld device accessory designer Sena Cases offers a collection of premium protective cases for a myriad of popular design models including the iPod, Palm Treo 680/750, Blackberry Pearl, Blackberry

8700 series, Samsung BlackJack, Cingular 8525, and the Motorola Q. Sena’s cases are individually handcrafted and constructed of full-grain, top quality, genuine calfskin leather by artisans in

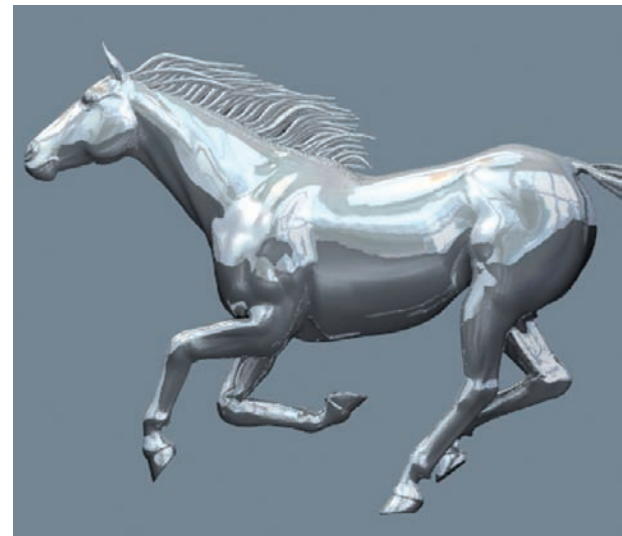

Istanbul, Turkey. The exquisite craftsmanship is showcased in the company’s four premium case models: Classic Flip-Down, MagnetFlipper, LeatherSkin, and

the Pouch. (www.senacases.com) — Mia Stefanko

Wear Your Horse On Your Sleeve

’Tis the season for all things horse, and what better way to showcase your passion than with a platinum/sterling silver alloy thoroughbred brooch, currently available at Soberon & Company Jewelers in The Lumberyard. They can also be ordered in solid platinum or 18-karat white or yellow gold. Soberon & Company Jewelers focuses on creating original masterpieces and limited edition designs. “We offer precise modern craftsmanship, the best materials, and a full range of vintage to contemporary designs,” says owner and lead designer Gerard Soberon. “Many customers want us to create complementary pieces that highlight but don’t overwhelm their favorite piece of jewelry.” One unique feature of Soberon & Company Jewelers is that they use computer animation

methods adapted for the design and creation of jewelry. After the initial design concept is put on paper, it is transferred to a software program that provides the ability to create 3D color renderings of the completed piece. The design can be revised in very little time, and the customer benefits from the ability to make changes without added time or expense. (760/942-7300) — Jane Shiomi
